<b>Description</b> Since the revenue sharing affects <a href="#">#64</a> and the website content, it should at least to some degree be clear early on. In the kickoff meeting the leading (?) proposal was to split revenue between the privacy orgs and (capped) those working on the project. In future iterations of the project the non-donation part of the revenue may go to the lab10 coop and be uncapped.			

### History

#### #1 - 04.05.2017 17:40 - leantom

To make it as simple as possible:

40% CCC Austria  
40% epicenter.works  
20% lab10 collective

Proposal: All collected money for the lab10 collective in 2017 will be split between the contributors in line with their percentage of contribution.  
For follow up years it will be a new budget planning based on the gained knowledge.
