

Play for Privacy - Support #72

Identify and involve Privacy organizations

07.03.2017 11:00 - didi

Status:	In Progress	Start date:	
Priority:	Normal	Due date:	
Assignee:	leantom	Estimated time:	0.00 hour
Description epicenter.works was so far identified as the main organization we can support with this project. Research if there are other organizations we can include. Get in touch with them and find out if they can get involved in mutually beneficent ways (e.g. by talking about P4P via their comms channels).

Got in touch with Chaos Computer Club (Martin Leyrer) and epicenter.works.
I still wait for feedback from epicenter.works but Martin was very interested.

We did not talk specifics but in line with the first reaction they are happy to support the idea.
